## Relationship Leadership

**Influences, inspires and guides others to develop their collaboration skills and teamwork; manages interpersonal conflict in order to increase productivity, trust, and group synergy.**

This report identifies the specific factors related to this Relationship Leadership behavioral competency and shows how the employee's score for each related factor impacts success for this behavioral competency.

Essential traits <i>(in order of importance)</i>	Negative Impact < > Positive Impact											
	Andrew's Score	Very strong	Strong	Substantial	Moderate	Slight	no impact	Slight	Moderate	Substantial	Strong	Very strong
<p><b>Influencing:</b> <i>The tendency to try to persuade others</i></p> <p>Narrative: Andrew very often engages in persuading and influencing others. Assuming he has the right balance of other interpersonal traits, Andrew is likely to be skillful in expressing his ideas to staff, co-workers and/or clients. This will probably have a slightly positive impact on this behavioral competency.</p>	8.1											
<p><b>Analyzes Pitfalls:</b> <i>The tendency to scrutinize potential difficulties related to a plan or strategy</i></p> <p>Narrative: Andrew usually does not enjoy analyzing the potential difficulties of plans and strategies and may sometimes neglect to do so. Therefore, it would be best if he were to receive other input before making important strategic decisions. This will probably have a somewhat negative impact on this behavioral competency.</p>	3.8											
<p><b>Authoritative Collaboration:</b> <i>The tendency to take responsibility for decisions while at the same time allowing others to genuinely participate in the decision-making process</i></p> <p>Narrative: Andrew has a reasonable degree of tendency to take responsibility for decisions while at the same time allowing others to genuinely participate in the decision-making process. This will probably be sufficient for this behavioral competency.</p>	6.7											
<p><b>Collaborative:</b> <i>The tendency to collaborate with others when making decisions</i></p> <p>Narrative: Andrew only moderately enjoys collaboration and probably only gives moderate importance to collaborating with others in the decision-making process. If Andrew is making important decisions that could benefit from collaboration, it might be wise to require collaboration before the final decision can be made. This will probably have a somewhat negative impact on this behavioral competency.</p>	4.7
